

MAHANTESH S NIGUDGI

Python Developer | AI/ML Engineer

+91-7795781165 | mantunigudgi@gmail.com | [LinkedIn: mahantesh-nigudgi](#) | [GitHub: mahantesh-nigudgi](#)

SUMMARY

Python Developer and AI/ML enthusiast with a strong foundation in Object-Oriented Programming, Django, SQL, and Machine Learning. Skilled in NLP and Retrieval-Augmented Generation (RAG), and currently building hands-on experience in Generative AI (GenAI). Passionate about building scalable applications and continuously exploring modern AI technologies.

TECHNICAL SKILLS

Programming Languages: Python, SQL, HTML, CSS.

Web Development: Django, Bootstrap.

Tools & Platforms: Git/GitHub, VS Code.

Data Structures & Algorithms: Arrays, Linked Lists, Stacks, Queues, Trees, Graphs.

Machine Learning: Supervised learning, Unsupervised learning, preprocessing techniques.

Generative AI: Retrieval-Augmented Generation (RAG), Large Language Model (LLM).

PROJECTS

Smart Job Application Tracker

Aug 2026

Link: <https://mahantesh1313.pythonanywhere.com/>

Python, Django, Bootstrap, HTML

- Built a web application, in which a user can track all his job application.
- Designed the web application to perform the CRUD operations and also the user can update the status of the job.

Vehicle Rental System

Jul 2026

Link: https://github.com/Mahantesh-Nigudgi/Vehicle_Rental_System

Python, Object-Oriented Programming (OOP)

- Developed a CLI-based vehicle rental management tool in Python using classes and dictionaries to store and retrieve vehicle data.
- Implemented rent calculation logic with input validation and identified and fixed logical bugs in conditional flow to correctly flag unavailable vehicles.

EDUCATION

PDA College of Engineering — Visvesvaraya Technological University

Sep 2020 – Aug 2025

Bachelor of Engineering (BE) in Electronics and Instrumentation Engineering | CGPA: 6/10

AWARDS & ACTIVITIES

- Cancer Awareness Marathon Run — Member (Apr 2022)
- Awareness of Higher Education in Government School — Member (May 2023)
